

Hi,

Thanks for a copy of the above 'Plan'.

I thought it was very Geometric in design.

No curves or bends. Right angles and like it!! And you must face in the correct direction!!
Very Eco. Eutopia then????

A couple of points. You mention a couple of times how presently, some people complain of feeling 'unsafe' when walking through the estate (High Path). It's the lack of right angled junctions and controlled traffic, but, might it also be the fact;

- * there are parts on this estate, where there have been no street lights (five in one area alone)
for at
- * roads not swept for years, think Hayword Close and Nelson Grove Road, where the leaves are
so crunched into the Tarmac, on wet days, it's downright dangerous under foot.

When we're living in an Eutopic environment, with the creation of Geometric roads will we be permitted
more regular street cleaning, and street lighting, the later, only if it's Eco., I suppose

What I find a bit mystifying about the whole 'Plan', is the sudden change in mind-set, re. estate maintenance. Tasks which should be carried out to a high standard at present, eg. street cleaning,
street lighting, replacement of broken or missing fencing, out door painting of bike shed door,
of course
there aren't any in 'The Plan', so that's one problem solved, highway maintenance etc. All these tasks
are going to be of the highest standard. If it is known standards are not satisfactory at the moment,
why are residents having to wait. Surely insulting treatment to residents.

One last thing. A few years ago, large sums of money were spent renovating Nelson Gardens to
celebrate his, I think, 200th anniversary. All sorts of people attended, including the media. It wasn't long before the place became a wilderness and a popular for alcoholics to chill out in.

You forgot to mention the 1,000 pupil school going to be 'slotted in' in a narrow strip of land on High Path!!!!

Thanks again for a copy of 'The Plan'.

Yours
