Consultation questions

Tell us what you think of the council’s draft Estates Local Plan

1) Having read and considered the council’s draft Estates Local Plan and supporting documents please indicate your preference at this stage for regeneration.

Please tick one of the following options:

☐ Option 1: Demolish and redevelop the entire Estate

Redeveloping the whole estate would mean demolishing and replacing the existing buildings to provide well-designed energy efficient new homes and general improvement to the neighbourhood, including connections to the surrounding areas.

☐ Option 2: Partial redevelopment

Retain some buildings and redevelop the majority of the estate to provide a number of benefits, such as well-designed energy efficient new homes but with fewer benefits to the neighbourhood.

☐ Option 3: Invest in existing properties to bring them to minimum modern standards

Refurbish all Circle Housing Merton Priory and leasehold properties to ensure they meet current minimum housing standards and have reasonable kitchens, bathrooms, windows, wiring and insulation. All leaseholders would have to share the costs of this work. This would not include changes to the outside areas.

3) Please tell us if you have any other comments about the council's draft Estates Local Plan?

(Please include details of the page number(s) and paragraph number(s) of the council’s draft plan to which your comments relate. Please continue on a separate sheet and attach to this form clearly indicating the question you are writing about.)

Movement + Access Page 104
Great concern re. making Nelson Grove road bigger. Where will east flowing traffic enter Morten High St? Mill road area is already a major “rat run” with consequent noise + pollution.

Land use Page 108 What safeguards for land + owners being priced priced out of new properties. What is “affordable”?

Open Space Page 112 Green buffer Zones - Trees + greenery indicates need to allow through roads on new estate to reduce pollutants + noise as well as open spaces for recreational use in heart of estate.

Building Heights Page 120 Building heights should remain at 5-6 storeys as the road to maximum light + air flow for residents situated further back. 5-6 story may be indicated towards the Centre of the developments.

Movement + Access Page 115 If tram link + Cassil implemented will have massive effect on traffic.

Land use Page 108 Residential density will greatly increase - can infrastructure cope? Particularly Tube, Water, Sewage, Road Traffic?
