**Note:** Each statement is followed by options for agreement, disagreement, or neither agreement nor disagreement. The comments indicate a consensus or disagreement regarding the plan to build 9 storey buildings along Morden Road, emphasizing the importance of discussing this with residents before proceeding.
We do not have the High Path in our system. Could you please provide more details or context about the document you are referring to?
High Path

Statement of Position

The High Path Estate is located in the Borough of Merton, London. It is a residential area with a mix of private and social housing. The estate is surrounded by a network of roads, including Merton High Street and High Path Road. The estate is well-defined and has a clear sense of place, with streets and spaces that are designed to support community life.

Traffic Management and Access

There is a concern about traffic management and access in the High Path Estate. Traffic congestion is an issue, and the estate is heavily used by large vehicles, buses, and ambulances. The estate is located near the main road, which is a through road, and so there is a significant amount of traffic going through the estate.

Parking and Overflow

The estate has limited parking facilities, and there is a concern about overflow parking. The development has to be designed to limit the impact of overflow parking and to ensure that parking spaces are available for residents.

Community Amenities

The estate has a range of community amenities, including shops, a library, and a community center. The estate also has a cycle-friendly environment, with facilities for cyclists. However, there is a concern about the impact of the proposed development on these community amenities.

Planning and Design

The planning and design of the estate are under review, and there is a concern about the impact of the proposed development on the character of the area. The estate has a unique character, and it is important to preserve this character in the future.

The proposed development must consider the impact of the proposed development on the estate. The development should be designed to limit the impact on the estate and to ensure that it complements the existing character of the area.

The estate has a strong sense of place, and it is important to preserve this sense of place in the future. The proposed development must consider the impact on the estate and the surrounding area and work to ensure that the development complements the existing character of the area.

The estate has a mix of private and social housing, and the development should consider the impact on both types of housing.

The estate has a range of community amenities, and the development should consider the impact on these amenities.

The estate has a cycle-friendly environment, and the development should consider the impact on the cycling facility.

The estate has a strong sense of place, and it is important to preserve this sense of place in the future. The development should consider the impact on the estate and work to ensure that the development complements the existing character of the area.

The estate has a range of community amenities, and the development should consider the impact on these amenities.

The estate has a strong sense of place, and it is important to preserve this sense of place in the future. The development should consider the impact on the estate and work to ensure that the development complements the existing character of the area.
