A copy of the proposed Traffic Management Orders (TMOs), a plan identifying the areas affected by the proposals and the Council’s Statement of Reasons can be inspected at Merton Link, Merton Civic Centre, London Road, Morden, Surrey, SM4 5DX during the Council’s normal office hours Monday to Friday, 9am to 5pm. This information is also available on Merton Council’s website www.merton.gov.uk/cpz1aex

Representations against the proposals described in this Notice must be made in writing to Traffic and Highways@merton.gov.uk or email trafficandhighways@merton.gov.uk by no later than 12 February 2016 quoting reference ES/A1ex. Objections must relate only to the elements of the scheme that are subject to this statutory consultation.

HOW WILL IT WORK?

All road space in a CPZ is managed by the introduction of parking controls. Parking is only permitted where safety, access and sight lines are not compromised. It is, therefore, normal practice to introduce double yellow lines at key locations such as at junctions, bends, turning heads and at specific locations along lengths of roads where parking would impede the passing of vehicles. It is also necessary to provide yellow lines (effective during the CPZ hours of operation) or “At any time” restriction where the kerb is lowered, i.e. at crossovers for driveways.

The key objective of managing parking is to reduce and control non-essential parking and assist residents, short-term visitors and the local businesses. Within any CPZ, only those within the zone are entitled to permits. This means that long-term parking will not be permitted during the operational times. An incremental pricing structure for 2nd and subsequent permits also assists in minimising the number of permits issued to individual residents and help discourage multiple car ownerships. CPZs comprise of various types of parking bays such as permit holder bays (for use by resident or business permit holders and those with visitor permits); shared use bays (for permit holders and pay and display) and pay and display only bays (permits are not valid).

Council appointed Civil Enforcement Officers will enforce the controls by issuing fines/Penalty Charge Notices (PCNs) to vehicles parked in contravention of the restrictions. Outside the controlled times the restrictions are not enforced. However, Civil Enforcement Officers will issue PCNs for any other parking contravention such as parking on double yellow lines, footways and parking across individual crossovers without the property owner’s consent.

The Council aims to reach a balance between the needs of the residents, businesses and the safety of all road users. In the event that the majority of those consulted do not support a CPZ in their road officers may recommend that only the proposed double yellow lines identified at key locations are introduced to improve safety and maintain access. This would be subject to the approval of the Cabinet Member for Environmental Sustainability and Regeneration.
