Hi

I recently learned that the council propose to change the usage of Kenilworth Green (Kenilworth Road) to residential with a view to development.

I would like to express my objection to this. I walk past the site on my way to Wimbledon and often detour in. It is a rare green oasis, valuable for its amenity as well as visual value. I think it would detract from the area by creating yet more ugly building on a green site and result in yet more overcrowding and traffic. I understand you have redesignated the site as 'vacant'. It is not vacant - it is used and valued by local people including myself.

Let's protect and preserve the little greenery and common space that is left.
