

**From Cain .J**

**Regarding: Morden Assembly Hall, Tudor Drive**

With regards to the proposal to build on the above site I would like to register my opposition to this.

The housing would impose on the privacy of the surrounding houses, view into bedrooms and gardens, etc.

The community hall and car park are in use every day and the loss of these facilities to the local people would have a big impact i.e. Parking used for pub, church and local shops.

The church have been previously refused permission to build flats above the church so it should be the same for the adjoining sites.

Many local residents share these views and must to taken into consideration before any decisions are made.

Please keep me informed on any meetings or decisions on this site.
