MOSS 2010 Greenways and Cycle Routes

Key

- Barclays Cycle Superhighways
  Routes signed for use by cyclists on a mixture of quiet and busier roads; some have cycle lanes marked on the road surface
  Quieter roads that have been recommended by other cyclists, may connect blue route sections

- Greenways: Shared use routes
  Where responsible cycling is permitted but pedestrians always have priority. Routes through parks may not be available for use at all times
  Pedestrian only route which connects cycling sections - you must dismount as cycling is not permitted at any time

Where cyclists can ride next to but separated from the road: usually for difficult junctions, where the road is very busy, or against the flow of one way streets. These routes may be shared with pedestrians
