

Neal. P

Site: 9 Amity Grove

Thank you for your letter dated 23rd February regarding the Council's preferred usage at 9 Amity Grove.

I am happy with the proposed usage of Community and Residential, or residential only (subject to community facility finding alternative provision). However, I think the new residential should be private housing with architecture in keeping with the rest of the street. I acknowledge that there are also flats at the southern end of the street, however I think the provision of housing with a victorian "feel" will have a positive contribution to the street.
