## Site 21 Leyton Road

Dear Sir,

We have received from our local councillors a notice about proposed changes to some of the properties owned by the Council.

I would like to comment on one of the properties where a change has been proposed.

i.e 21 Leyton Road Centre

We feel the neighbourhood has been accustomed to the surroundings and hence unless there is going to be a profound amelioration of the environment there does not seem to be any positive advantage for the change. Also it is already a congested area with a high density of housing and other activity. Juxtaposing in this midst a housing scheme as suggested can cause untold social problems such as burglaries, racial issues etc. The parents of the children who are attending the school can be derailed from their accustomed routines and habits etc which could be disrupting.

The above are some of the problems that can arise. At a further consultation I can adduce additional reasons to decide against the proposals. Please keep me informed of any further consultations.
