Dear Resident / Business

The purpose of this leaflet is to inform you that Merton Council is introducing cycle facilities in Haydon’s Road as part of the development of the London Cycle Network, funded by Transport for London. The current cycle route runs along Haydon’s Road and into Durnsford Road.

This proposal is part of the proposed 900km of London wide cycle routes and is proposed to make it easier, safer and more convenient for cyclists to use Haydon’s Road. The development of the cycle network is intended to increase peoples’ choice of realistic and affordable forms of transport.

The scheme works are as follows:

**Cycle facilities in Haydon’s Road**

The scheme shown on the plans are for new advisory cycle lanes along Haydon’s Road. There will be a new advisory cycle lane on the northbound carriageway that will be located from the junction of Effra Road to the junction of Cromwell Road and a new advisory cycle lane located on the southbound carriageway from the junction of Kohat Road to the junction of Caxton Road. These new cycle lanes will be between 1.2m and 1.5m in width and will be highlighted by green coloured surfacing. Existing parking will be unaffected by the implementation of the new cycle lanes.

The new section of cycle lane on the northbound carriageway from the junction of Queens Road to the junction of Cromwell Road will also have a buffer zone that will consist of a hatched area between the edge of the cycle lane and the vehicular running lane, this area will be approximately 1.0m in width.

The new cycle lanes will provide improved facilities for cyclists using Link 151 of the existing cycle network and will raise awareness to other road users of the presence of cyclists using Haydon’s Road.

**What happens next**

Prior to these works taking place, you will be notified via a letter from the Council’s Contractor advising you when the construction works will commence, with contact numbers for the Engineers overseeing the scheme.

The current programmed start date for these works is November 09.
