Dear Resident/Business

The purpose of this newsletter is to inform you of the outcome of the formal consultation carried out in September 2005 on the review of Wimbledon Village controlled parking zones and the decision made by the Cabinet Street Management Committee.

A report was presented to the Council’s Cabinet Street Management Committee meeting on the 11th January 2006 where the following were approved.

- to convert pay and display shared bays in Murray Road outside Nos.18-22 and Nos. 29-33 to resident permit holder bays only and reduce the maximum stay from 9 hours to 2 hours in the pay and display shared use bays in Murray Road at its junction with Ridgway;
- to replace the existing single yellow lines with double yellow lines for a minimum of 10 metres at all the junctions in all the Wimbledon Village zones;
- to introduce double yellow lines along Ridgway and Church Road (within the existing controlled parking zones) with the exception of identified locations;
- to allow Controlled Parking Zone (CPZ) VC resident permit holders, who live south of High Street to park in zones VOn and those who live north of High Street to park in zones VOn and VN. Zone VC permit holders will not be permitted to park in zone VOt.

The Council has acknowledged the fact that the majority of those who responded to the consultation opted for no change. Those factors that were considered include:

- within the comments section of the prepaid reply card many residents commented that zone VC permit holders should be allowed to park within their zone.
- zone VC can not function properly without the help of the other zones.
- since 1999 zone VC permit holders have been allowed to park in zone VOn.
- since 2004 there has been an Experimental Traffic Management Order to allow zone VC permit holders to park in zone VOs.
- there are no records to indicate that this arrangement has caused any inconvenience to the zones VOn and VOs.

It was also agreed that the scheme is reviewed in 9 months time and a further report presented to the Cabinet Committee.

For the above measures to be implemented it would be necessary for a number of proposed measures to also be put in place in other zones to make effective and efficient use of the existing bays.
