London Borough of Merton (Waiting and Loading Restrictions) (Amendment No. *) Order, 200*
Controlled Zone (Parking Places) Order 200*

Zone W6

The policy of the Council is to improve the environment by regulating the number of parked vehicles in the area and increase safety for both motorists and pedestrians. The key objective of the proposal to introduce a controlled parking scheme in the Edge Hill and Dralaston Road area is to reduce and control non-essential parking and assist residents, short-term visitors and local businesses and to improve safety for all road users. This is in line with the Mayor’s Transport strategy, which aims to tackle congestion and reduce traffic and specifically supports Controlled Parking restrictions.

A controlled parking zone aims to provide safe parking arrangements whilst giving priority access to parking space to residents. It is a way of controlling the parking whilst improving and maintaining safety for all road users.

The measures also include ‘At any time’ restrictions at key locations such as junctions; bends and along lengths of a road where parking impedes flow of traffic. The proposed measures will improve access, sightlines and safety for all road users particularly for pedestrians and other vulnerable road users.

Further details regarding these proposals can be obtained by contacting Mr James Geeson on 020 8545 3054 or email James.geeson@merton.gov.uk.
