

Perkins. T & P

Site Morden Hall

Once again you are trying to take away a community facility, i.e the assembly hall and the free car park.

I am a member of the church next door and see how much both of these facilities are used by the community.

How many times are you going to try to take this amenity away?

Isn't it funny how when the church ask to change their hall usage into hall/residential it was refused planning, but when you want to do something very similar you expect the whole community to rally behind you!!!! Even to intimate the usage of the church property as well.

As you can understand how strongly we oppose these plans - once again.

I would appreciate being kept informed of the outcome and confirmation of my e-mailbeing received.
