Subject: Addition - Objection to the inclusion of site 641/642 in the Publication Stage of the DPD
Importance: High

Dear Sir/Madam,

In addition to our objections presented on the 15th February, HAYDONS BRIDGE RESIDENTS ASSOCIATION would like to add:

My understanding is that the proposed plan requires only 7 hectares over a period of 10 years therefore the 200 acres provision is an overall overprovision.
For this reason the Sites 641 and 642 should be eliminated from the Waste Plan. This proposed plan will have a negative impact on air quality and unsustainable and unsuitable community strategy due to the nature of the heavily populated area in the proximity of the proposed plan.

Many thanks

Paola Francia-Gardiner
