Dear Sir/Madam

**Re: Sites and Policies DPD: Site Proposal 30: land adjacent to 10 Home Park Road** (Locally known as Kenilworth Green)

Please leave the green free from the threat of redevelopment.

As stated in the letter from Iain C Simpson there are many reasons to value and enjoy this small green space.

I have lived in Kenilworth Avenue for over thirty years and in this time, the area, thanks especially to the efforts of local people, has been enjoyed as a quiet space for people to sit, enjoy company and walk their dogs. Moreover, it is a haven and sanctuary for wildlife.

Must we consider any kind of development, possibly high density, in such a small space? I hope not. As always, there is no turning back a process once begun, to the detriment of all who live in the area and further beyond.
