

**From: Warrener. A**

Dear Sirs

I wish to object to any proposal to change the existing use of the above premises from an Assembly Hall with adjoining car park. My reasons are many fold but basically the Hall provides valuable resources to the community in many guises and has recently been used to provide funeral arrangements for non denomination sections of the community. In addition the car park is widely used almost every day for school runs shopping visits wakes church services etc and none of these can be accommodated at your alternative venue. In any event the floor area is considerably less at the sports ground mentioned.
