

From: D.M Whelan

I offer the following brief comments:

Merton Hall - the lack of on-site or nearby off-road parking renders the site unsuitable for extended community use. If developed at all I would like to see any buildings set back like the present one and not brought forward to the neighbouring building line.

Wimbledon Theatre Car Park and Hartfield Road Car Park - best use is as at present. If in years to come, the need for car parking is reduced, they should be left as open spaces. We do not want the whole town centre to be built over.

Grove Public House, corner of Morden Road/Kingston Road - disappointed not to see this on the list. The pub is an eyesore and none of its recent owners have managed to make a commercial success of it. It would be best demolished and the space used to provide a left filter lane for traffic turning left from Morden Road. Any space left could be used for a small residential development.
