

From: Williamson .S

I am writing to express my concern at finding out that the above site, locally known as Kenilworth Green, is on your list of potential sites for redevelopment.

I would like to convey my strong objection this.

Kenilworth Green is the only remaining area of 'green space' for local residents. It is maintained well and is a welcome, appreciated sanctuary for locals.

People walk their dogs, meet or just sit peacefully in this small, precious, green space.

Our streets are becoming more crowded, the traffic is heavier and this is compounded by the constant noise of the continuous trains nearby.

Kenilworth Green offers a welcome relief and sanctuary to all this and is simply a pleasant space.

I would appreciate your taking into consideration my comments and delete this area from your list in future.

Would you please keep me informed about further decisions made regarding this area?
